[illegible]

(57) **Abstract:** In a fuel cell equipped vehicle (10), a fuel cell (30) is accommodated in a first recess portion (22) which forms part of a floor panel (20) of a vehicle passenger room (R1) and which is provided below front seats (60), with an upper portion of the fuel cell (30) protruding above a reference plane (20a) of the floor panel (20). That is, the fuel cell (30) is disposed inside the vehicle passenger room (R1) and is protected from dust or slop. Accordingly, maintenance of the fuel cell (30) is easier to carry out in comparison with a case where it is exposed to dust or slop.
